## GOLD PORTRAIT SESSION

Through my 25+ years with horses, one of my biggest regrets is not having more images with horses in my past. You never know when a partnership may end and it is a wonderful feeling knowing you have pictures to help keep all the memories fresh. This session allows for one hour in front of the camera and up to two outfits. You will receive 30+ fully edited images for your personal use.

*Add on a Mini Black Background session for \$50.*

## SILVER PORTRAIT SESSION

If the Gold Portrait Session is more than you feel you need, we also offer this shorter session to hopefully fit within every equestrians budget and schedule. This way everyone will have the chance to document their amazing partnership with their horse. This session allows for half an hour in front of the camera and no outfit changes. You will receive 20+ fully edited images for your personal use.

*Add on a Mini Black Background session for \$50.*
